NOTE

The Biographical Records File on Bulgaria having been sent in microfilm to the theatre, this report gives only a "control list" of Bulgarian pro and anti-Nazi figures, to be used in connection with the file. No biographical material in Bulgarian personalities has been included. In the absence of complete Biographical Records files, the Rumanian and Hungarian lists contain short biographical notes for purposes of better identification.

It should be noted by those who use these lists that in the satellite countries many pro-Allied persons have been unable or afraid to speak out, and that they are therefore difficult to identify; while some of those persons listed as pro-German have taken their stand to save their lives or their material possessions, and not from any moral or political conviction.
